

VERY IMPORTANT
PLEASE ENSURE YOUR VENUE CAN ACCOMMODATE OUR EQUIPMENT
FAILURE TO DO SO MAY MEAN WE CANNOT OPERATE.

Site Access and Power Info Sheet - Conditions of Hire

- Access must be provided, with a clear approach to the operating site of at least 1.5m wide including gateways.
- Access must be free of steps, stairs and obstructions.
- The Mad Cow requires:
 - A flat and level circular operating area at least 7m in diameter (7m x 7m)
 - An overhead clearance of 3m, special attention should be given to fans, light fittings, signage etc.
 - 2 x standard dedicated single-phase power outlets of at least 15 amps within 30 metres of the operating position.
 - The Mad Cow operates using 3 phase motors with an inbuilt single-phase inverter. So as to ensure proper operation, particular attention should be given to a dedicated power source for the Mad Cow.
 - Operating surface to be flat, dry and free from loose and or sharp material.
 - Operating weight is 450kg. Floors should be able to withstand a loading of at least 400kg m².
 - Notice should be given if floors are polished or decorated, it is the customer's responsibility to ensure floors are protected.
- The Gladiator Joust requires:
 - A flat and level operating area of 5.5m x 5m
 - An overhead clearance of 3.5m, special attention should be given to fans, light fittings, signage etc.
 - 1 x standard single-phase power outlets of at least 10 amps within 30 metres of the operating position.
 - Operating surface to be flat, dry and free from loose and or sharp material.
- The Open Age Jumping Castle requires:
 - A flat and level grassed operating space of 5m x 7m
 - An overhead clearance of 4.5m, special attention should be given to fans, light fittings, signage etc.
 - 1 x standard single-phase power outlets of at least 10 amps within 30 metres of the operating position.
 - Operating surface to be flat, dry and free from loose and or sharp material.
- The Sumo Suits require:
 - A flat and level grassed operating space of 5m x 5m
 - The immediate surrounding area is to be free of hazards.
 - Operating surface to be flat, dry and free from loose and or sharp material.
 - The Sumo Suits are dry-hire which means no operators are supplied with the game.
 - Due to OH&S requirements Mad Cow Entertainment staff are NOT permitted to lift or assist in lifting competitors using the Sumo Suits.
 - The hirer must supervise all users and rules of use must be explained to each user prior to use.
 - Any damage to the Sumo Suits is the hirer's responsibility.
- As per WorkCover guidelines, when required we can supply safety fencing around our equipment, as well as the above operating area we also require an additional 2m clearance around the site.
- If the event is during the evening lighting will be required.
- Power for the Mad Cow via a generator should be from a minimum 12kva dedicated unit.
Power for blowers is 2HP 1.5kw 1500 watts per blower.
- All rides are taken at the rider's own risk. Children must be riding with parental consent and under parental supervision.
- All participants should be made aware that injuries can and do occur with interactive games, therefore all participants take part at their own risk.
- It is the hirer's responsibility to provide adequate provisions for inclement weather. Should we be unable to operate due to poor weather, cancellation fees may apply.

By accepting this booking the Customer, Event Organiser and/or Committee acknowledges that all the above conditions are understood and agrees to reimburse Mad Cow Entertainment for any losses incurred including travel costs, staff wages, accommodation expenses and damage to equipment or the venue should the venue or site be unsuitable for safe operation of our equipment.

**IF THESE CONDITIONS OF HIRE ARE NOT SUITABLE FOR YOUR EVENT OR LOCATION
PLEASE ADVISE OUR OFFICE AS SOON AS POSSIBLE.**
